eNox Media Wins Two StandOut Website Awards

(Tampa, Florida) – eNox Media receives two StandOut Website Awards for two of its websites, API (www.api.net), a leading Southeastern technology services provider, and Thaisoul Music (www.thaisoul.com), a promotional website for the house music producer Jask. Both awards were presented for excellence in website design and overall functionality. This is the first time eNox Media has won a StandOut Website Award.

API and Thaisoul Music are hybrid websites created in PHP, XML, Adobe Flash 8, and MySQL. Both websites are powered by the eNox Media Content Management System. Thaisoul Music utilizes eNox Media's Music Manager System, which allows the administrator to change the selection of music played on the website.

The StandOut Website Awards (www.standoutawards.com) are designed to inspire and recognize creative and innovative work from website designers worldwide. The organization showcases the best and most uniquely designed websites around the globe.

About eNox Media, Inc.
